It is not so much Heinrich's voice as his unarvelous appreciation that makes him the king of singers, and the case, yet perfect postrayal, with which he renders his astections. At the close of the suite the archiester fairly shouted salvos in its delight. Bowing failed to appears them, and Heinrich was forced to again seat himself at the instrument, this time rendering "Funcin-fle" in a way which made a new song of the familiar ditty. The Dummerston and the G. Morris, two of the old-time locomotives of the Val-ley road, have been condemned and taken to Boston by the Boston & Maine management. Thirty years ago Ira Earle, now of Bellows Falls, was engineer on the Dum-merston, and at the same time John Rogers, now of Brattleboro, had charge of the Putney, another of the locomotives of that day. In 1876 Lyman W. Aldrich of Shrewsbury, this state, took out a life insuarnce policy with the National company of Montpelier. He dropped the policy after making two or three payments, and supposed that the mat-ter was ended. The company issued a paid up policy for as much as the reserve would pay, and \$100 is now due Mr. Al-drich or his heirs, hence the advertisement in another column.

last meeting of the season at the Brooks C. D. Whitman Tells What Stage of Progress Has Been Beached, and Gives "Points" to Prospective Visitors.

Dear Phonix;-It may interest your readers to hear from the World's Fair direct from a Brattleboro man who is "in it." I have been only one day on the grounds, but can testify that the whole thing is immense. It is also very incomplete, though buildings are being finished and exhibits placed day and night. One week more will not finish the work. Everything will be done that can be done to give visitors on Mayday morning little to find fault with, out many last touches will be given later.

To all who may ask to know when to visit Chicago I will say, don't come until about May 20. Then don't fail to come as early and often as possible until the Exposition closes. It will be a complete education to the young, and a revelation to everybody. Don't come until you know just where you will stay, with hotel and rates, and street and number, indelibly fixed in mind or note book. The name of a hotel means nothing here. Scores of new hotels are not finished yet, many are only skeletons. Hotel Endeavor is plastered but not painted, no doors hung, and is the "great unready," but it will be a grand place by the middle of May, located alongside the take, in a quiet neighborhood, within sight and easy walking distance of the entrance, and with 1000 rooms at reasonable rates. Seventy-sixth arrest and Bond avenue locate the Endeavor.

I am "at bome" with Ed. J. Brown, a songs, playing his own accompaniment on the piano, as he did in Brattleboro last Vermonter from Pawlet, who sets a good table, and keeps a temperance house of 200 rooms. "He's all right." Brown's hotel is at South Chicago, corner 92d street and South Chicago avenue.

Every convenience is planned for the comfort of visitors on the grounds; and don't be afraid of Chicago water. Sterilized water, clear as crystal, is at frequent places, and free as air. Waukesha mineral spring water is sold at a penny a glass, but the thirsty visitor is not obliged to buy it or 'dry up." It is not true that roughs and oughs are to run things here this summer. Mayor Harrison is waging war on gambling dens. Business principles, and not partisan favoritism, will come first.

Very truly. C. D. WHEEMAN.

"Rose Stewart is the daintiest singer on the concert stage! Her production, technique and in terpretations are as accurate as though made on an instrument. Ber voice is light, but of a quality marvelously pleasing, clear, it me and flexible, while as an artist she has attained skill equaled by few. It is little wonder that Marchesi declared her such a marvel. If Miss Stewart had the physique of many women she would be one of the leading singers of the country. As it is it would be hard to find a more finished artist. Not a flaw could be detected in her remittions, and the way the andence demanded an encore was starting. She responded with a charming performance of the old bullaid. The Land of the Leal." YOUR SAVINGS BANK BOOKS. Look Them up and Bring Them to the Bank.

CAUSE AND EFFECT. From the Concord, N. H., Monitor.)

The town of Brattleboro, Vermont, presents a remarkable record. During the past year there have been but 12 arrests in the village, and of these four were of non-residents. There has been no case of theft or incendiarism, and during a fair which had an attendance of 21,000 there was no occasion for police interference.

The bailiffs in concluding their report say: "Good order, good citizenship, and good health are closely related: the first is dependent on the second. Public opinion has fully indorsed and sustained the action of the board in their efforts to enforce the prohibitory law. Not one salion, to one bar in our village—a grand statement and true. Result charly deducible—no drunkenness, no crimes, no fires, no disturbances."

What more need be added? Here are

The Odd Fellows of Barre celebrated the 74th, amiversary of the founding of the order in America Wednesday. Lodges from several towns took part in the exercises, which opened with a parade. Grand Master I. J. Retting of Brattleboro presided at the meeting at Blanchard opera house in the evening. Joseph Kidder of New Hampshire delivered the address, and Rev. A. J. Hough of Montpeller read a poem. Remarks were made by several members. Later in the evening there was a dance. With no drunkenness, no crime, no fires and no disturbances of any sort during the past year, Brattleboro, Vt., may fairly lay claim to being the Utopia of America.

The annual meeting of the Brattleboro lodge, No. 102, F. and A. M., was held last evening. The one of the state of the state of the state of the Vaugho, S. W.; M. I. Mather, J. W.; W. H. Brackett, treasurer; F. W. Nichola, secretary, Owing to the absence and illness of Mr. Randall, the master elect, the appointed officers were not named. It is only of late years that rheumatism has been treated as a blood disease. But that this is a correct theory is proved by the extraordinary success attending the use of Ayer's Sarsapari is, in this painful and very prevalent malacy. It seldom fails of radical cure. The Universalist parish of Ludiov has extended a call to Rev. H. O. Maxham of Tufts college, and he will begin his labors there next Sunday.

THE NEW METHODIST MINISTER.

Sketch of Rev. A. J. Hough---Comment of the Montpelier Papers.

Rev. Alfred J. Hough, the newly ap-pointed minister of the Methodist church of Brattleboro, was born in England 40 years ago, and was educated in that country. He has served in the Vermont conference at Hartland, White River Junition twice, Ludlow, Woodstock, Bradford and Montpeller, being at the latter place the past four years. He was chaplain of the Vermont legislature during his residence in Montpeller, and was presented with a gold watch by the members of that body. He has been on the lecture platform more than other Vermonters, in or out of the conference. He is a versatile poet and has written numerous occasional poems in a remarkably happy vein, besides contribut-ing to the leading Methodist papers, the Youth's Companion, Sunday School Times, New York Independent, New England Magazine, Christian Union, and for young people's societies. The new Epworth songs has four of his pieces set to music. Mr. Hough has a family of a wife and four children. Two sons will remain at Mont-peller, one being in business there and the other a student at the Vermont Methodist seminary. The daughter, aged 10, and the youngest son, aged 10, will come to Brattle-boro with Mr. and Mrs. Hough. It is safe to predict that Mr. Hough will be an important factor in all public movements in Brattleboro, and in this connection it is of interest to note the comment of the Mont-peller papers on his work there. Brattle-boro extends a cordial welcome to Mr. Hough and his family.

Doring the four years that be has served as paster of that church, not only has be won the affection and support of his parishioners, and the respect and combience of the entire community, but he has been enabled to see the fruits of his abors in larce accessions to the membership of his church, especially an sing the young people. Whether in the paipt, where his sermons have attracted large congregations, evencing, as they have, a deep pacty, a well-trained and fertile inclient, and often a disposition to grappie with live moral issues, whether in the Sunday school, where he has gathered about him a large class of young men, in the social meetings of the church that have been especially dear to him, in pastoral work, at the marriage aftar, the baptismal font, or beside the open grave, Mr. Hough has proved himself a man of tender sympathy and large heart, of rare-talent, abundant in labor for others, and at all times a cultured Christian gentleman. Trinity church will part with him with sincere regret, and an individual or collective expression of opinion from members of that church and congregation would be that the ficek to which he is sent as pastor will be fortunate indeed.

A Ball Player's Record.

Henry Burrell, the first base man of the Vermont champions of 1989, was in town this week, on his way to Springfield, Mass, where he is to pitch for the team that represents that city in the Eastern league. After leaving Brattlebore Burrell went to lowa, where he did good work as a pitcher in the Lowa-Himois league. The next year he ranked as the star pitcher of the league, playing with the Johet, Ill., team. In the latter part of the season the St. Louis Browns bought his release. He pitched II games for the Browns in the American association, winning all but three. He signed with St. Louis for last season at a salary of \$250. Manager Ted Sullivan and Capt Counskey left the Browns and the American and National leagues were combined, throwing out some of the younger players, among them Burrell. He was at once secured by the Milwankee team of the Western league. In the previous season, pitching for St. Louis, he had held the Milwankees down to two hits and shut them out without a run. He was the winning pitcher for the Milwankee team, and after the league, winning nearly every game in which he pitched. Last Jannary he signed with the San Francisco club. He waited for his contract, which has not come, and now, at the opening of the season, it is necessary for him to take what ever position he can get, although he refused offers from New Orleans, Nashville and other places only a few meanths ago.

The Mt. Hermon boys played their first game of the season against the Amherst Aggles at Amherst Saturday and were defeated to 2. The Mt. Hermon team was crippled after the first inning, when Catcher Abbott broke two fingers. The Vermont Academy boys have made a good showing in their opening games. They were detected Saturday by the Dartmouth Freshmen 6 to 1, but on Monday were victorious over the Mt. Hermons, 10 to 5. To-morrow they cross bats with the Dartmouth Reserves. Summersgill held the Mt. Hermons down to three hits and struck out 11 men. Charlie Cox played centre field for the Vermont Academy.
